ABOUT CNM IT

CNM is a well-established IT solutions provider based in KZN. We aspire, individually and collectively, to build relationships with our clients in order to deliver exceptional service and value.

Our people are our strongest asset and from a team of two when the company started in 2004, we have grown our staff in both numbers and expertise, helping to guide and support our clients who range from small end users to multi-national companies.

We aim to provide innovative technology infrastructure, services and solutions to ensure that our clients can focus on their core business. We understand that business relations are the foundation of success and we place the utmost importance on building strong relationships with both our clients and partners.

"Information technology and business are becoming inextricably interwoven. I don't think anybody can talk meaningfully about one without the talking about the other" – Bill Gates
